Introduction

The Financial Reporting Configuration Training aims to provide a good understanding of the structure of the Account tree in Openbravo Business Suite and the configuration of the Account tree needed for the Balance Sheet and Profit and Loss report.

This self study course can be started straight away!

Audience

Aimed at **consultants, potential and current partners and advanced users**, that need to learn in more depth the **accounting functionality**. This course requires the student to already be familiar with the basic functionality of the core Openbravo Business Suite and preferably know the concepts of accounting.

Content

In the first chapter the concepts of the Account tree and the financial reports in Openbravo. In the next chapter the exercise will teach the student the concepts of the Account tree and show the impact of changes that are made to the account and how these changes reflect on the Balance Sheet and the Profit and Loss report. With this, the student will be able to review and restructure an Account tree during an implementation.

Formats

Online Elearning Format

The format of the Costing training is comparable with the other online training courses that we offer. Here is an overview of the elearning format delivered to the student:

- the training can be **enrolled to at any time** and **started straight away**
- course access is granted through an **online elearning platform** with access to the **documentation**
- the format is **self study without live lectures**
- **Around 8 hours** of study is estimated to be required by the student
- the **login** to the course is sent within **24 hours** after the payment has been received
- the **course access** is granted during 1 week
- **emergency support** is offered through an integrated course forum monitored by Openbravo instructors.
- exercises should be executed in a **local environment** (preferably a virtual machine described in the course's documentation)

Requirements

Knowledge prerequisites

Basic knowledge of the following areas in the Openbravo Business Suite is required and therefore the student should have successfully completed the Business Suite Functional Training. Also it is recommended that the student has knowledge of accounting concepts.

Computer Requirements

- A compatible web browser. Due to the fact that the Openbravo Business Suite is a **rich-internet-application**, the newest browsers with optimized Javascript engines are recommended for the best user experience:
 - Firefox 4
 - Google Chrome 9
 - Internet Explorer 9
 - Safari 5
